Subject: Request for Authorization to Conduct a 30-Day External Security Audit (Student Research Project)

Respected Sir,

I am writing to formally request authorization to conduct a non-intrusive, external 30-day security audit of publicly accessible digital systems of Resunga Multiple Campus.

I would like to clearly state that I am a student and independent cybersecurity learner/researcher, and **not a licensed IS auditor** under NTA or any other regulatory body. This assessment is being conducted strictly as a student research project for learning and skill-building purposes. It should not be considered a formal compliance audit.

Objectives of the Audit:

- Identify potential vulnerabilities in publicly exposed systems
- Apply industry-standard security assessment methodologies
- Provide helpful recommendations to support stronger security posture

Scope of Work (Allowed):

- OSINT and public information gathering
- Subdomain enumeration
- DNS & WHOIS analysis
- Non-intrusive port and service scanning
- SSL/TLS and security header evaluation
- Technology fingerprinting
- Non-destructive testing for SQLi, XSS, CSRF
- Authentication and session review
- Input/output validation checks
- Public endpoint access control review
- Directory and file exposure checks
- Email security assessment (SPF, DKIM, DMARC)
- CVSS-based risk scoring

Out-of-Scope (Not Performed):

- Exploiting vulnerabilities
- Backend or database access
- Password cracking or brute-force attacks
- Uploading payloads or malware
- DDoS or stress testing

- Social engineering
- Any intrusive or unauthorized actions

Confidentiality and Publication:

All collected data will be handled securely and confidentially.

A **redacted, non-sensitive** version of the final report may later be published on my portfolio (**anujpanthi.com.np**) with full credit to me, and only after receiving approval from the campus.

Student Researcher Information:

Name: Anuj Panthi

Email: anujpanthi66@gmail.com

Portfolio: anujpanthi.com.np

Contact: 9765875727

Qualification: BE Computer Engineering (Ongoing), IOE Pokhara
+2 Computer Science (GPA 3.7), 2025

I kindly request your written authorization to proceed with this research-oriented assessment within the proposed 30-day period. Thank you for your time and consideration.

Warm regards,

Anuj Panthi
