

Risk Disclosure Notice

Independent Security Audit — Risk Disclosure Notice

Purpose

To clarify potential risks associated with non-intrusive external security testing.

Residual Risks

Even with safe techniques, minor effects may occur:

- Firewall/IDS alerts
- Temporary rate limiting
- System logs triggered
- Exposure of already existing vulnerabilities

Coverage Limitations

The audit aims to identify vulnerabilities but cannot guarantee detection of all possible risks.

Monitoring

The organization is responsible for monitoring system behavior during the assessment.

A redacted version of the final findings may later be published on the auditor's portfolio with full credit to the auditor.
